

2D LAMINATE LINE

AMERICAN NATURAL

COLONIAL CHERRY

HILLSIDE OAK

NATURAL OAK

MANHATTAN WALNUT

SORREL PEAR

RUSSIAN MAPLE

Laminates laid up on thin gauged aluminum sheets

Information regarding these finish offerings.

- 4' wide sheets are standard with these finishes, material yield on 2' wide modular panels create half a sheet of waste. This may not be the best price point for smaller module panels.
- Fabrication friendly and tend to get through punching & forming operations easily, which leads to the ability to ship sooner.
- These finishes offer an affordable price point while producing an attractive wood aesthetic. Couple that with the ease of fabrication and it creates an overall pleasantly competitive system price for a Specialty Ceiling or Wall System.
- Curved Trims can be profile wrapped with these finishes.
- Large sheet widths available so fabrication can accommodate 48" wide panels.

3D LAMINATE LINE

Laminates laid up on thin gauged aluminum sheets

Information regarding these finish offerings.

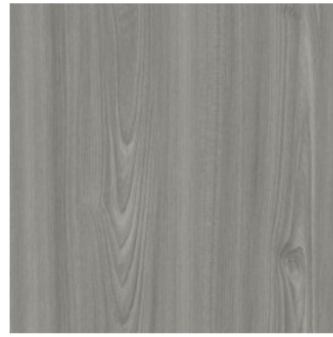

- 4' wide sheets are standard with these finishes, material yield on 2' wide modular panels create half a sheet of waste. This may not be the best price point for smaller module panels.
- The finish offerings come in wide variety of species and are considered premium in quality and aesthetics. The price point for these finishes are a little higher than the 2D Line
- The laminates are thicker than the 2D Line and require a little more process, which can create a little longer lead time for fabrication.
- Large sheet widths available so fabrication can accommodate 48" wide panels.
- Curved trims can be profile wrapped with these finishes.
